

2023 Annual CCR Fugitive Dust Control Report

Revision 0

December 8, 2023

Project No.: A10572.160

1. PURPOSE

Pursuant to 40 CFR 257.80(c), this document provides the annual fugitive dust control report for AES Indiana's (AESI) Eagle Valley Generating Station (EVS) located in Morgan County, Indiana.

Since the prior Annual Fugitive Dust Control Report (dated December 8, 2022), no specific measures beyond the control measures presented in the CCR Fugitive Dust Control Plan were required to control CCR fugitive dust at EVS. No citizen complaints have been recorded regarding CCR fugitive dust at EVS and, as such, no corrective measures have been taken beyond the established CCR Fugitive Dust Control Plan procedures.

2. CONCLUSION

AESI will continue to review and evaluate the effectiveness of the CCR Fugitive Dust Control Plan for EVS, complete and retain CCR Fugitive Dust Monitoring Reports as needed, and record and address citizen complaints as required in accordance with the CCR Fugitive Dust Control Plan.

3. CERTIFICATION

I certify that this document was prepared by me or under my direct supervision, and that I am a registered professional engineer under the laws of the State of Indiana.

This document is released for use under the authority of David E. Nielson, Indiana PE No. 10300076, on December 8, 2023.
