

# Find and Fix Program

A fast-track, turnkey solution to uncover and implement energy-saving opportunities in your building systems.

## Unlock Savings with AES Indiana

**“Unlock high-impact energy savings  
— typically 5–15% annually —  
with minimal disruption and quick payback.”**

AES Indiana incentivizes assessment and implementation to help building owners reduce energy consumption and save money.

### How it Works

- Find:**  
RCx provider\* will perform a Customer\*\* site visit, to identify common RCx energy savings measures and present a scope of work for customer approval.
- Project Approval:**  
Customer confirms and approves scope of work with RCx provider.
- Fix:**  
RCx provider implements agreed to scope of work. Upon completion, the RCx provider will submit all required documentation to the Program. Customer is responsible for any charges presented in the scope of work that are not covered by the Program.

### Common Measures

Scheduling

Supply Air Reset

Static Pressure Reset

Economizer Optimization

Thermostat Setpoint Adjustments

Demand Control Ventilation

## More Information

Interested in becoming an approved Program Partner?

For more information contact us at [AESIndianaRetrocX@aes.com](mailto:AESIndianaRetrocX@aes.com).

Incentives values are subject to change. Details are for the 2026 program year and implementation for projects must be completed on or before October 31, 2026.

Program incentives are allotted on a calendar-year basis and are available on a first-come, first-served basis.

An incentive may not exceed the cost of implementation net outside funding received, not including taxes, warranty fees, installation costs, or maintenance fees. AES shall make the final determination regarding incentive amounts. An individual customer will be limited to \$500,000 in AES Business Energy Incentives in any calendar year.

All AES energy programs are subject to Indiana Utilities Regulatory Commission rules and regulations.

\* Customer must work with a program approved RCx Provider to be eligible for this program.

\*\* Customers meeting the following criteria are pre-approved to participate in the program. [e.g. AES IN customer receiving service on rate, SS, SL, or SH], annual building energy consumption of 500,000 kWh or greater, have digital HVAC controls, must not have participated in the program in the last 3 years]
