Benefits of AES Indiana E-bill

Greener billing

Help the environment by having bills delivered via email, saving paper and

Personalized notifications

Receive customizable billing and payment notifications by email and

Free online payment

Pay your bill online for free from your checking or savings account.

October is Energy Awareness Month

October is a great time to revisit your personal sustainability goals and improve how you manage and use energy at home and work.

AES Indiana can help you **reduce energy and costs** with these quick tips:

Improve the efficiency of your HVAC system by replacing air filters, tuning it up, or upgrading to a new unit. High efficiency central air conditioners save up to \$150 per year in energy costs.

Shop smart solutions in the AES Indiana Marketplace. Purchase a smart thermostat or set your thermostat to 70° or lower when you are home and lower when you are asleep or away.

Purchase LED bulbs which use up to 90% less energy than incandescent bulbs and last up to 25 times longer. The average home uses 40 bulbs.

Green Power

Support renewable energy for just a few dollars more each month by signing up for AES Indiana Green Power Option. Green Power Option allows you to specify part, or all of your monthly electricity use to be generated by an environmentally friendly, renewable resource.
