

## New Year. New Energy.

Working with you – our customers – combining global and local resources, we're improving lives by delivering greener, smarter energy solutions right here in Indianapolis.

After more than a century of service, we embraced the past and celebrated the future as we transitioned to our new brand AES Indiana. With changing technology, we expect to offer new products and services to help our customers achieve their most important objectives – reliability, affordability and sustainability.

We are focused on transitioning to cleaner, more efficient and cost-effective energy solutions. Just a few of our sustainability efforts:

- Adding a 195 MW solar project in Clinton County and a 250 MW solar and 180 MWh battery storage array in Petersburg.
- Accelerating the adoption of electric vehicles through a strategic partnership with Motor.
- Creating personalized and convenient customer experiences with our new Plus app.

We invite you to stay up-to-date on our efforts by visiting [aesindiana.com](http://aesindiana.com) or connecting with us on Twitter, Facebook and Instagram.

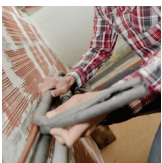

## Add energy efficiency to your New Year's resolutions

The start of the new year is the perfect time to make a commitment to save energy and money. AES Indiana is encouraging customers to make the resolution to be energy efficient in 2022. Here are a few tips to help get you started. customers with reliable, personalized, and seamless energy services.

Change or clean your furnace air filter once a month. Dust and dirt make your unit work harder.

Insulate water pipes (especially hot water pipes) to help prevent them from freezing and from heat escaping.

Avoid using space heaters. They are expensive to operate and dangerous.

When using the fireplace, turn down the temperature in other rooms. Otherwise, warm air from those rooms will go right up the chimney – along with your money.

Open curtains and blinds during the day to let the warm sun in. Keep curtains and blinds closed at night to keep cold air out.

## Be a part of the downtown energy

In a three-part video series, AES Indiana is **bringing the energy** to three significant projects and places in downtown Indianapolis. The series launched in December featuring Monument Circle and its transformation into a wondrous winter wonderland. January showcases the electrifying arts, architecture, food, and fun found at the **Bottleworks District**. February will feature the energy found throughout **16 Tech's 50-acre innovation** dedicated to world-changing innovation and economic opportunity. We invite you to be a part of the energy!
