S&L Project No. 10572-120

Rev. 0
Issue Date: December 13, 2018
Issue Purpose: Use

1 PURPOSE

Pursuant to 40 CFR 257.80(c), this document provides the annual fugitive dust control report for Indianapolis Power & Light Company's (IPL) Eagle Valley Generating Station (EVS) located in Morgan County, Indiana.

Since the prior Annual Fugitive Dust Control Report (dated December 13, 2017), no specific measures beyond the control measures presented in the CCR Fugitive Dust Control Plan were required to control CCR fugitive dust at EVS. No citizen complaints have been recorded regarding CCR fugitive dust at EVS and, as such, no corrective measures have been taken beyond the established CCR Fugitive Dust Control Plan procedures.

2 CONCLUSION

IPL will continue to review and evaluate the effectiveness of the CCR Fugitive Dust Control Plan for EVS, complete and retain CCR Fugitive Dust Monitoring Reports at least quarterly, and record and address citizen complaints as required in accordance with the CCR Fugitive Dust Control Plan.

3 CERTIFICATION

I certify that this document was prepared by me or under my direct supervision, and that I am a registered professional engineer under the laws of the State of Indiana.

This document is released for use under the authority of David E. Nielson, Indiana PE No. 10300076 on December 13, 2018.
